Re: Change of Production Site of ARALDITE HARDENER POWDER PF

Dear Valued Customer,

This is written to inform that we switched production of ARALDITE HARDENER POWDER PF from our European plant to Panyu Plant - China:

SKU	European Version Product Name	SKU	Panyu Version Product Name
4569708	ARALDITE HARDENER POWDER PF 1KG 55E	4858708	ARALDITE HARDENER POWDER PF CI 1KG P3

They are the same products. Product quality, performance and specification remain unchanged. The suffix – CI is just to indicate the production location – China, where the stocks are produced.

Should you need further assistance, please do not feel hesitated to contact our Commercial representative or Technical sales support colleagues that are known to you.

Yours sincerely,

Huntsman Advanced Materials
